

Number Stumper

- This game has intrigued people for centuries!
- It starts easy—learn addition and subtraction from the rolling dice.
- Then the challenges increase—learn to develop strategies to win.
- A game of chance that delights!

"The Learning Company software makes excellent use of the computer's capabilities."

Popular Computing

The Learning Company is widely regarded as the pioneer in computer learning software. The company was founded by educational psychologist Dr. Ann Piestrup and the roots of the company remain grounded in educational theory. All TLC software programs are evaluated by its team of educational authorities and are extensively tested with children for their playful format and learning value. The company remains committed to providing children with software that teaches conceptual learning, logic and problem solving — skills that are needed for the computer age.

Number Stumper, The Learning Company's logo, and The Learning Company are all trademarks of The Learning Company.
